Experience

2020 - 2023
Ericom Software Systems

Software Engineer

Project (2020- present)

Client - Sports Domain

Enviorment - Java, Spring Framework, Micro-Services,Maven, Jenkins

Description

The Gamemetrics is a project that focuses on collecting and processing sports odds and feeds obtained from the SportsRadar company. The system utilizes this data to provide real-time updates to users and offers functionalities such as data storage, data distribution via Kafka, and client management through the CM (Client Manager) component.

Key Responsbilities

I am responsible for diagnosing and resolving technical issues and bugs in the sports betting app. This involves analyzing log files, investigating reported problems, and implementing solutions to ensure smooth operation of the application.

2020 - 2021

Singh Engineering Works, NSPCL Bhilai-3 (C.G)
Supervisor

Setting goals for performance and deadlines in ways that comply with company's plans and vision.
Monitoring employee productivity and providing constructive feedback and coaching.

2017 - 2020

Rotocast Industries Limited, Birgaon (C.G)
Supervisor

Supervising the manufacturing processes, ensuring quality work is done in a safe manner.
Diagnosing problem in the production line and providing recommendations and training.

Declaration

I hereby declare that all the particulars furnished above are true & correct to the best of my knowledge and belief.
